

## ALL ABOUT ME

### What?

- When your child is moving to secondary school, it can be helpful for their teachers and SENCO to learn more about them.
- This information will help them best support your child in school and put extra help in place where needed
- Your child might need support to pass this information on to their teacher

### How?

- Use the 'All about me' resource below to fill in with your child
- Include all the important information that your child would like to share with their teacher, to help them to know them better
- There are pictures and prompt sheets to help you think about some of the more tricky ideas together e.g. what words describe you, what helps you to learn
- Once this is complete, contact school or post the form to them, asking it to be shared with the relevant people
- Other people involved with supporting your child (e.g. Speech and Language Therapists) may send information to your school about how best to support your child, but it might be helpful for you to include any reports/resources/advice that you have available at home

## All about me

My name is.....

I am ..... years old

My Junior school was .....

My Secondary school will be .....

What words best describe you? (see attached sheet for visual prompts)
